## **Wright Total Indoor Comfort Makes Annual Inc. 5000 List**

**Colorado Springs, CO (August 24, 2009)** – **Wright Total Indoor Comfort** is proud to announce its inclusion in the annual ranking of the 5000 fastest-growing private companies in the country by Inc.com, the online arm of *Inc.* magazine. The list is the most comprehensive look at the most important segment of the economy – America’s independent-minded entrepreneurs.

**Wright Total Indoor Comfort** is the largest residential replacement heating and air conditioning company in southern Colorado... a distinction they’ve enjoyed since 2007.

“We are so excited to be included in this prestigious list,” says **Wright** president **Weldon Long**. “To be included among stellar companies and pioneering entrepreneurs speaks to the incredible efforts of the hard-working men and women in our company. They’ve really made me proud to be a part of the Colorado Springs community... and I’m so thankful for this wonderful first-team accomplishment.”

The Inc. 5000 is ranked according to percentage revenue growth from 2005 through 2008. To qualify, companies must have been founded and generating revenue by the first week of 2005, and therefore able to show four full calendar years of sales. Additionally, they have to be U.S.-based, privately held, for profit, and independent—not subsidiaries or divisions of other companies—as of December 31, 2008. Revenue in 2005 must have been at least \$200,000, and revenue in 2008 must have been at least \$2 million.

“Savvy trend spotters and those who invest in private companies know that the Inc. 5000 is the best place to find out about young companies that are achieving success through a wide variety of unprecedented business models, as well as older private companies that are still expanding at an impressive rate,” said Inc. 5000 project manager Jim Melloan. “That’s why our list is so eagerly anticipated every year.”
